PORT-A-BRIDGE DISCLAIMER

GME is providing a portable bridge system that is a pre-engineered to carry a load for the full span of the Port-a-Bridge from centerline bearing to centerline bearing. All bridge units are designed in accordance with AASHTO-US bridge design codes and can safely carry HS-25 loading.

Contractors shall be responsible for the following:

A. Handling and installation of the Port-a-Bridge.
B. Abutments or support systems including all anchors used in installation of Port-a-Bridge.
C. All jobsite conditions where the Port-a-Bridge is in use.

No drilling, welding or alterations of any kind to the GME Port-a-Bridge without written permission from GME.
